INDEX OF SUBJECTS

Original articles

Abstracts of papers, Scientific Sessions of the Annual Meeting of the American Society of Clinical Pathologists, September 1966, 353
Acid-base balance, new approach to, 614
Adenocarcinoma of lungs, 580
Alkaline incineration determination of serum protein-bound iodine, 17
Amino acid composition of anti-**D** as isolated by immunologic specificity, 429
Autopsy verification of suicide by digitalis, 180
Anatomic pathology
  adrenal gland, cytomegaly, 585
  appendix, *Hemophilus influenzae*, 643
  arteries
    autopsy study of femoral-popliteal vessels, 652
    vascularization with ATPase technic, 167
  bone
    abnormal hemoglobin diseases in Thailand, 745
    improved stain for fresh, mineralized sections, 78
    neurilemmoma of bone, 759
  brain
    congenital spongioblastoma of pons, 790
    progressive multifocal leukoencephalopathy; a virus disease?, 114
    serodiagnosis of mumps CNS disease, 481
  fetus, cytomegalic inclusion disease, 738
  intestine
    experimental enteritis cystica in rats, 69
    fatal disseminated cytomegalic inclusion disease in an adult, 124
  joints
    cytology of synovial fluid in rheumatoid arthritis, 203
    identification of tissue lipids in lipoid dermatoarthritis, 312
  kidney
    megalocytic interstitial nephritis, 781
    multiple myeloma and the nephrotic syndrome, 567
    renal homotransplantation, 802
  lung
    adenocarcinoma of lungs, 580
    crystalline inclusion pneumonia following use of Hytrast in bronchography, 154
    pulmonary bile thromboemboli, 490
  lymph node
    histiocytic medullary reticulosis, 160
    histiocytosis, 484
  maceration for microdissection, 349
  muscle, dehydrogenases and hydrolases, 594
  nerve, fiber and cholinesterase activity in fresh frozen sections, 74
  ovary
    luteoma of pregnancy, 148
    nodular theca-lutein hyperplasia of pregnancy, 557
  placenta, human trophoblast, normal and abnormal, 249
  prostate, hyperplasia, atypism, and carcinoma *in situ*, 497
  skin
    identification of tissue lipids in lipoid dermatoarthritis, 312
    sweat-gland carcinoma, 767
  spinal cord, removal at autopsy, 649
  spleen
    abnormal hemoglobin diseases in Thailand, 745
    histiocytosis, 484
  stereo reels in teaching pathology, 209
  testis, malacoplakia, 135
  thioflavin-T for amyloid detection, 588
  tissues, cryostat sections of formalin-fixed tissues, 417
Anemia, fibrinolytic activity and clot strength in, 344
Antibiotics
  drug susceptibility tests for tuberculosis with drug impregnated disks, 812
  manual punch card system for recording, filing, and analyzing antibiotic sensitivity test results, 818
Antibody titrations; methods and accuracy, 217
Apparatus
  adaptation of refractometer for rapid specific gravity determinations, 830
  alternative method of filling microcuvette of Beckman/Spinco spectrocolorimeter, 243
  automated method for urea nitrogen analysis, 677
  Coulter counter for determining low sperm concentrations, 226
  data processing and computer technics in hospital clinical laboratory, 60
  electronic mean cell volume computer and hematocrit accessory, 229
  electronic particle counting and ocular micrometry, 466
  erythrocyte osmotic fragility adapted to Auto-Analyzer, 632
  flow-through cuvette for Coulter counter, 107
  kinetic photometric method for serum leucine aminopeptidase, 607

Original articles—*Continued*
Apparatus—*Continued*
modified Coleman cuvette adapter, 832
multiple inoculating device for bacteria, 554
photographic recording of Ouchterlony plates with simple polaroid equipment, 831
processing Cryostat sections of formalin-fixed tissues, 417
scale expansion for flow-through hemophotometer, 410
semiautomatic dilution system for hematology laboratory, 549
semiautomatic inflation of blood pressure cuffs, 238
semiautomatic micro sample dilutor, 545
sex chromatin screening with Millipore technic, 105
slide rule for simple calculation of percentage of prothrombin activity, 241
stereo reels in teaching pathology, 209
Argininosuccinic acid lyase in human erythrocytes and plasma in health and disease, 693
Artificial blood serum for teaching situations, 224
Autopsy study of femoral-popliteal vessels, 652

β-Thalassemia hemoglobin E disease, pathology of, 745
Bacteriology
antibody titrations; methods and accuracy, 217
bacteria Mima-Herellea; isolation and clinical significance in a general hospital, 729
comparison of alcohol and iodine for skin antisepsis in obtaining blood cultures, 646
drug susceptibility tests for tuberculosis with drug impregnated disks, 812
human infection with *Isospora belli*, 347
identification difficulties with *Shigella dysenteriae*, serotype 1, 186
immunologic response in mice and rabbits to mycobacterial antigens determined by Jerne agar-plaque method, 719
isolation of *Hemophilus influenzae* from appendix and incision, 643
manual punch card system for recording, filing, and analyzing antibiotic sensitivity test results, 818
Mycoplasma pneumoniae; complement-fixing antibody titers at birth, 641
multiple inoculating device for bacteria, 554
salt mannitol plasma agar for isolation of *Staphylococcus aureus*, 30
Blood
abnormal elevation of hemoglobin A_2 in hereditary spherocytosis, 454
Duke bleeding time, 459
false-positive test produced by formalin in test for occult blood in feces fixed by polyvinyl alcohol, 691
screening tests for bleeding disorder, 622
simple method for detection of abnormal plasma fibrinogen levels, 538
simple method for preparation of substrate for 1-stage factor V assay, 533
Blood banking
abnormal elevation of hemoglobin A_2 in hereditary spherocytosis, 454
amino acid composition of anti-**D** as isolated by immunologic specificity, 429
avidity method for prediction of severe erythroblastosis, 440
differential storage of human blood, 413
instant blood bank inventory, 236
quantitative assay of the Hageman factor, 448
screening tests for bleeding disorder, 622
semiautomatic inflation of blood pressure cuffs, 238
severe neonatal anemia due to massive transplacental hemorrhage, 444
simple method for detection of abnormal plasma fibrinogen levels, 538
simple preparation of substrate for a 1-stage Factor V assay, 533
Blood coagulation
albumin pseudoagglutinating property in serum, 821
capillary micro partial thromboplastin test in hemophiliac disorders, 91
clinical application of coagulographic studies, 190
Duke bleeding time, 459
fibrinolytic activity and clot strength in anemia, 344
prothrombin time test survey (1963), 40
screening tests for bleeding disorder, 622
simple method for detection of abnormal plasma fibrinogen levels, 538
simple preparation of substrate for 1-stage factor V assay, 533
slide rule for simple calculation of percentage of prothrombin activity, 241
Bone sections, improved stain for fresh, mineralized, 78

Calcium and tissue copper, simultaneous determination of, 175
Cancer
adenocarcinoma of lungs, 580
multiple myeloma and the nephrotic syndrome, 567
Card flocculation test in the field diagnosis of trichinosis, 26
Chemistry
adaptation of refractometer for rapid specific gravity determinations, 830
alternative method of filling the microcuvette of

the Beckman/Spinco spectrocolorimeter, 243
amino acid composition of anti-**D** as isolated by immunologic specificity, 429
analysis of some components of variation in clinical chemistry, 337
automated method for urea nitrogen analysis, 677
autopsy verification of suicide by digitalis, 180
characterization of normal serum glutamic-oxalacetic transaminase activity of healthy adults, 3
comparison of methods of measuring transferrin and iron-binding capacity of serum, 326
determination of serum protein-bound iodine by alkaline incineration, 17
electrophoretic precipitin test on cellulose acetate (letter), 87
G-6-PD deficiency; diagnosis, clinical, and genetic implications, 303
G-6-PD in mature erythrocytes, 287
G-6-PD, its purification and properties, 296
G-6-PD, the pentose phosphate cycle, and its place in carbohydrate metabolism, 271
G-6-PD, the red cell, and hemolysis; introductory remarks for symposium on, 269
glutamic-oxalacetic transaminase methods, reliability of, 419
Hopkins-Cole determination of aldehyde-free glacial acetic acid, modification of, 222
identification of tissue lipids in lipoid dermatoarthritis (multicentric reticulohistiocytosis), 312
improved filtration of amniotic fluid, 691
international method and standard solution for hemoglobinometry specifications for preparation of standard solution, 212
micro automated parallel measurement of serum calcium and phosphorus, 395
microfluorometric screening technic for phenylketonurias, using filter paper sample collection, 401
modified Coleman cuvette adapter, 832
new approach to acid-base balance, 614
new method for total, free, and conjugated serum bilirubin, 472
quality control aspects of chemistry laboratory form, 329
quantitative electrophoretic determination of lactate dehydrogenase isoenzymes, 96
renal function measurement with radioiodinated diatrizoate and *o*-iodohippurate, 9
screening test for detection of elevated serum glutamic oxalacetic transaminase activity, 541
selection of criteria for pure cholesterol preparation for standardizing serum cholesterol measurements for medical diagnosis and therapy, 654
significance of metabolism and enzyme activity in the red cell, 282
simultaneous determination of tissue copper and calcium, 175
spectral absorption characteristics of human methemalbumin, 631
suggested documentary format for new methods and instruments (letter), 351
thermal stability of lactic dehydrogenase from human tissues, 171
total iron-binding capacity without deproteinization with nitroso-R-salt, 714
College of American Pathologists 1963 prothrombin time test survey, 40
Congenital spongioblastoma of the pons, 790
Crystalline inclusion pneumonia following use of Hytrast in bronchography, 154
Cytology
eosinophilia of peritoneal fluid and peripheral blood associated with chronic peritoneal dialysis, 638
rapid preparation of smears of effusions and solid mass aspirates for cytologic diagnosis, 797
renal homotranspiantation; the cytology of urine sediment, 802
sex chromatin screening with Millipore technic, 105
synovial fluid in rheumatoid arthritis, 203
Cytomegalic inclusion disease, fatal disseminated, in an adult presenting with a lesion of the gastrointestinal tract, 124
Cytomegalovirus, isolation of, from tissues of condyloma acuminatum, 734
Cytomegaly of adrenal gland, 585

Data processing
analysis of some components of variation in clinical chemistry, 337
experience and potential of data processing and computer technics in hospital clinical laboratory, 60
for clinical laboratories, 661
instant blood bank inventory, 236
manual punch card system for recording, filing, and analyzing antibiotic sensitivity test results, 818
quality control aspects of chemistry laboratory form, 329
Diabetes mellitus, insulin response in glucose-tolerance tests, 709
Diagnosis of death by drowning, enzymologic approach to, 704
Duke bleeding time, 459

Original articles—*Continued*
Electronic mean cell volume computer and hematocrit accessory, 229
Electrophoresis
patterns of several dehydrogenases and hydrolases in muscles in human myopathies, 594
precipitin test on cellulose acetate (letter), 87
quantitative electrophoretic determination of lactate dehydrogenase isoenzymes, 96
Endocrinology
comparison of new latex agglutination pregnancy test with latex agglutination-inhibition test, 100
Coulter counter, efficacy of, in determining low sperm concentrations, 226
G-6-PD deficiency; diagnosis, clinical and genetic implications, 303
G-6-PD in mature erythrocytes, 287
G-6-PD; its purification and properties, 296
G-6-PD, the pentose phosphate cycle, and its place in carbohydrate metabolism, 271
G-6-PD, the red cell, and hemolysis; introductory remarks for the symposium, 269
human trophoblast; normal and abnormal, 249
improved procedure for determining serum protein-bound iodine by alkaline incineration, 17
nodular theca-lutein hyperplasia of pregnancy (so-called "pregnancy luteoma"), 557
significance of metabolism and enzyme activity in the red cell, 282
Enteritis cystica, experimental, in rats, 69
Enzymology
argininosuccinic acid lyase in human erythrocytes and plasma in health and disease, 693
characterization of normal serum glutamic-oxalacetic transaminase activity of healthy adults, 3
diagnosis of death by drowning, enzymologic approach to, 704
electrophoretic patterns of several dehydrogenases and hydrolases in muscles in human myopathies, 594
glutamic-oxalacetic transaminase methods, reliability of, 419
kinetic photometric method for serum leucine aminopeptidase, 607
quantitative electrophoretic determination of lactate dehydrogenase isoenzymes, 96
screening test for detection of elevated serum glutamic oxalacetic transaminase activity, 541
serum levels of 5′-nucleotidase in disease, 598
thermal stability of lactic dehydrogenase from human tissues, 171
vascularization with adenosinetriphosphatase technic, study of, 167
Eosinophilia of peritoneal fluid and peripheral blood associated with chronic peritoneal dialysis, 638
Erythroblastosis, avidity method for prediction of, 440

Fluorescent antibody technic
comparison of fluorescent and conventional darkfield methods for detecting *Treponema pallidum* in syphilitic lesions, 809
comparison of FTA-ABS and TPI tests, 521
evaluation of the FTA-ABS test for syphilis, 404
FTA-ABS and TPI tests in syphilitic patients and biologic false-positive reactors, 525
FTA-ABS test, a note on, 408
human spleen imprints for routine testing for serum antinuclear factors by immunofluorescence, 432
rubella virus; direct fluorescence, 129
Forensic science
autopsy verification of suicide by digitalis, 180
enzymologic approach to diagnosis of death by drowning, 704

Genetics
G-6-PD deficiency; diagnosis, clinical and genetic implications, 303
microfluorometric screening technic for phenylketonurias, using filter paper sample collection, 401
sex chromatin screening with Millipore technic, 105
Glutamic-oxalacetic transaminase methods, reliability of, 419

Hageman factor, quantitative assay of, 448
Hematology
abnormal elevation of hemoglobin A_2 in hereditary spherocytosis, 454
another reason for an elevated MCHC (letter), 352
argininosuccinic acid lyase in human erythrocytes and plasma in health and disease, 693
avidity method for prediction of severe erythroblastosis, 440
capillary micro partial thromboplastin test in hemophiliac disorders, evaluation of, 91
clinical application of coagulographic studies, 190
Cr^{51} red cell survival and corrections for hematocrit (letter), 85
Duke bleeding time, 459
electronic mean cell volume computer and hematocrit accessory, 229
electronic particle counting and ocular micrometry for determination of cell-size distribution of mouse bone marrow, 466
eosinophilia of peritoneal fluid and peripheral

blood associated with chronic peritoneal dialysis, 638
erythrocyte osmotic fragility adapted to the AutoAnalyzer, 683
fibrinolytic activity and clot strength in anemia, 344
flow-through cuvette for the Coulter counter, 107
G-6-PD deficiency; diagnosis, clinical and genetic implications, 303
G-6-PD in mature erythrocytes, 287
G-6-PD, its purification and properties, 296
G-6-PD, the pentose phosphate cycle, and its place in carbohydrate metabolism, 271
G-6-PD, the red cell, and hemolysis; introductory remarks for symposium on, 269
histiocytic medullary reticulosis, 160
histiocytosis of spleen, lymph node, and bone marrow, 484
identification of tissue lipids in lipoid dermatoarthritis, 312
international method and standard solution for hemoglobinometry specifications for preparation of standard solution, 212
multiple myeloma and the nephrotic syndrome, a biochemical and morphologic study, 567
new fixative for cytochemical examination of blood and bone marrow smears, 827
pathology of abnormal hemoglobin diseases seen in Thailand, 745
prothrombin time test survey (1963), College of American Pathologists, 40
scale expansion for the flow-through hemophotometer, 410
semiautomatic dilution system for hematology laboratory, 549
severe neonatal anemia due to massive transplacental hemorrhage, 444
significance of metabolism and enzyme activity in the red cell, 282
staining method for smears of peripheral blood, 234

Hemophilus influenzae, isolation of, from appendix and incision, 643
Histochemistry
simultaneous determination of tissue copper and calcium, 175
staining for nerve fiber and cholinesterase activity in fresh frozen sections, 74
thermal stability of lactic dehydrogenase from human tissues, 171
vascularization with ATPase technic, study of, 167
Histiocytic medullary reticulosis, 160
Histiocytosis of spleen, lymph node, and bone marrow, associated with thrombocytopenia, splenomegaly, and splenic angiomata, 484
Histologic technic
improved stain for fresh, mineralized bone sections, 78
processing cryostat sections of formalin-fixed tissues, 417
rapid hematoxylin and eosin stain, 689
rapid method of maceration for microdissection, 349
staining for nerve fiber and cholinesterase activity in fresh frozen sections, 74
thioflavin-T for amyloid detection, 588
vascularization with ATPase technic, study of, 167
Hopkins-Cole procedure, modification of, for determination of aldehyde-free glacial acetic acid, 222
Human myopathies, electrophoretic patterns of several dehydrogenases and hydrolases in muscles in, 594
Human trophoblast; normal and abnormal, 249
Hyperplasia, atypism, and carcinoma *in situ* in prostatic periurethral glands, 497

Immunohematology
amino acid composition of anti-**D** as isolated by immunologic specificity, 429
avidity method for the prediction of severe erythroblastosis, 440
quantitative assay of the Hageman factor, 448
severe neonatal anemia due to massive transplacental hemorrhage, 444
Immunology
antibody titrations; methods and accuracy, 217
comparison of FTA-ABS and TPI tests on serums from 1182 diagnostic problem cases, 521
comparison of new latex agglutination pregnancy test with established latex agglutination-inhibition test, 100
electrophoretic precipitin test on cellulose acetate (letter), 87
evaluation of the FTA-ABS test for syphilis, 404
FTA-ABS and TPI tests in syphilitic patients and biologic false-positive reactors, 525
FTA-ABS test, a note on, 408
HI and CF tests in serodiagnosis of mumps CNS system disease, 481
Mycoplasma pneumoniae; complement-fixing antibody titers at birth, 641
photographic recording of Ouchterlony plates with simple polaroid equipment, 831
response in mice and rabbits to mycobacterial antigens determined by the Jerne agar-plaque method, 719
rubella virus; direct fluorescence, 129
Isospora belli, human infection with, 347

Original articles—*Continued*
Jerne agar-plaque method for immunologic response in mice and rabbits to mycobacterial antigens, 719

Lactate dehydrogenase isoenzymes, quantitative electrophoretic determination of, 96
Lactic dehydrogenase from human tissues, thermal stability of, 171
Luteoma of pregnancy; a pseudotumor, 148

Malacoplakia of testis, 135
Megalocytic interstitial nephritis; an entity probably related to malakoplakia, 781
Multicentric reticulohistiocytosis, 312
Multiple myeloma and the nephrotic syndrome; a biochemical and morphologic study, 567
Mycology, deep mycotic infections in Colombia; a clinicopathologic study of 162 cases, 505
Mycoplasma pneumoniae; complement-fixing antibody titers at birth, 641

Neonatal anemia due to massive transplacental hemorrhage, 444
Neurilemmoma of bone, 759
Nodular theca-lutein hyperplasia of pregnancy (so-called "pregnancy luteoma"), 557

Parasitology, card flocculation test in the field diagnosis of trichinosis, 26
Pneumonia, crystalline inclusion pneumonia following the use of Hytrast in bronchography, 154
"Pregnancy luteoma," 557
President's address, 109
Procedures
  artificial blood serum for teaching situations, 224
  automated method for urea nitrogen analysis, 677
  comparison of alcohol with iodine for skin antisepsis in obtaining blood cultures, 646
  comparison of fluorescent and conventional darkfield methods for detection of *Treponema pallidum* in syphilitic lesions, 809
  Coulter counter in determining low sperm concentrations, 226
  Hopkins-Cole procedure, modification of, for determination of aldehyde-free glacial acetic acid, 222
  improved method for filtration of amniotic fluid, 691
  insulin response in glucose-tolerance tests, 709
  micro automated parallel measurement of serum calcium and phosphorus, 395
  new method for bleeding guinea pigs, 416
  optimal conditions for dialysis of spinal fluid and urine in routine laboratory, 824
  removal of complete spinal cord at autopsy, 649
  screening tests for bleeding disorder, 622
  spectral absorption characteristics of human methemalbumin, 631
  staining method for smears of peripheral blood, 234
  suggested documentary format for new methods and instruments (letter), 351
Progressive multifocal leukoencephalopathy; a virus disease?, 114
Prothrombin activity, slide rule for simple calculation of percentage of, 241
Pulmonary bile thromboemboli, 490

Radioisotopes
  Cr^{51} red cell survival and corrections for hematocrit (letter), 85
  renal function, measurement of, with radioiodinated diatrizoate and *o*-iodohippurate, 9
Renal homotransplantation; the cytology of the urine sediment, 802
Rheumatoid arthritis, cytology of synovial fluid in, 203
Rubella virus; direct fluorescence, 129

Serology
  comparison of fluorescent and conventional darkfield methods for detection of *Treponema pallidum* in syphilitic lesions, 809
  comparison of FTA-ABS and TPI tests on serums from 1182 diagnostic problem cases, 521
  evaluation of FTA-ABS test for syphilis, 404
  FTA-ABS and TPI tests in syphilitic patients and biologic false-positive reactors, 525
  FRA-ABS test, a note on, 408
Serum
  albumin pseudoagglutinating property in serum, 821
  artificial blood serum for teaching situations, 224
  comparison of methods designed to measure transferrin and iron-binding capacity of serum, 326
  determination of serum protein-bound iodine by alkaline incineration, improved procedure for, 17
  kinetic photometric method for serum leucine aminopeptidase, 607
  levels of 5′-nucleotidase in disease, 598
  new method for total, free, and conjugated serum bilirubin, 472
  normal serum glutamic-oxalacetic transaminase activity of healthy adults, characterization of, 3
  screening test for detection of elevated serum

glutamic oxalacetic transaminase activity, 541
Sex chromatin screening with Millipore technic, 105
Shigella dysenteriae, serotype 1; identification difficulties with, 186
Spectral absorption characteristics of human methemalbumin, 631
Spinal fluid and urine, optimal conditions for dialysis of, in routine laboratory, 824
Spleen imprints, human, for routine testing for serum antinuclear factors by immunofluorescence, 432
Staphylococcus aureus, salt mannitol plasma agar for the isolation of, 30
Sweat-gland carcinoma, a clinicopathologic problem, 767
Synovial fluid in rheumatoid arthritis, 203

Thioflavin-T for amyloid detection, 588
Tissue copper and calcium, simultaneous determination of, 175
Total iron-binding capacity without deproteinization with nitroso-R-salt, 714
Trichinosis, card flocculation test in field diagnosis of, 26

Urine
comparison of new latex agglutination pregnancy test with established latex agglutination-inhibition test, 100
measurement of renal function with radioiodinated diatrizoate and *o*-iodohippurate, 9
microfluorometric screening technic for phenylketonurias, using filter paper sample collection, 401
optimal conditions for dialysis of spinal fluid and urine in routine laboratory, 824
renal homotransplantation; the cytology of the urine sediment, 802

Virology
cytomegalic inclusion disease; the fetal disorder, 738
fatal disseminated cytomegalic inclusion disease in an adult presenting with a lesion of the gastrointestinal tract, 124
HI and CF tests in serodiagnosis of mumps CNS disease, 481
isolation of cytomegalovirus from tissues of condyloma acuminatum, 734
progressive multifocal leukoencephalopathy; a virus disease?, 114
rubella virus; direct fluorescence, 129

Ward Burdick Award Address; human trophoblast: normal and abnormal. A plea for the study of the normal so as to understand the abnormal, 249

TABLE OF CONTENTS

JANUARY TO JUNE, 1967

Number 1, January 1967

Photograph. *Lall G. Montgomery, President, American Society of Clinical Pathologists, 1966–1967* 1
Characterization of the Normal Serum Glutamic-Oxalacetic Transaminase Activity of Healthy Adults. ELIAS AMADOR, MARY F. MASSOD, AND ROBERT J. FRANEY 3
Measurement of Renal Function with Radioiodinated Diatrizoate and *o*-Iodohippurate. CHARLES D. FARMER, W. NEWLON TAUXE, FRANK T. MAHER, AND JAMES C. HUNT 9
An Improved Procedure for the Determination of Serum Protein-Bound Iodine by Alkaline Incineration. JACQUELINE B. ISOLA 17
Card Flocculation Test in the Field Diagnosis of Trichinosis. MYRON G. SCHULTZ, IRVING G. KAGAN, AND GEORGE S. WARNER 26
A New Medium, Salt Mannitol Plasma Agar, for the Isolation of *Staphylococcus aureus*. E. B. BLAIR, J. S. EMERSON, AND A. H. TULL 30
1963 Prothrombin Time Test Survey, College of American Pathologists, Standards Committee, Subcommittee on Coagulation. JOHN B. MIALE AND DAVID J. LA FOND 40
Initial Experience with and Potential of Data Processing and Computer Technics in a Hospital Clinical Laboratory. E. R. GABRIELI, V. PESSIN, J. THORPE, AND R. R. C. PALMER 60
Experimental Enteritis Cystica in Rats. GISSUR BRYNJOLFSSON AND HAROLD B. HALEY 69
Staining for Nerve Fiber and Cholinesterase Activity in Fresh Frozen Sections. TATSUJI NAMBA, TOSHIO NAKAMURA, AND DAVID GROB 74
An Improved Stain for Fresh, Mineralized Bone Sections. Useful in the Diagnosis of Certain Metabolic Diseases of the Bone. A. R. VILLANUEVA 78
Letters to the Editor:
Cr^{51} Red Cell Survival and Corrections for Hematocrit. GEORGE BRECHER 85
Reply. JOHN U. HIDALGO AND MONROE S. SAMUELS 87
Electrophoretic Precipitin Test on Cellulose Acetate. E. E. MUIRHEAD 87
In Memoriam:
Donald Feldman, Ph.D. STANLEY M. BECKER 88
Wilbur Floyd Keller, M.D. JAMES P. DEWAR 89
Hugh Wilson, M.D. HAROLD WAGNER 90
News and Notices 90

Technical Section

An Evaluation of a Capillary Micro Partial Thromboplastin Test in Hemophiliac Disorders. FEREYDOUN MOCHIR-FATEMI AND SANFORD LEIKIN 91
Quantitative Electrophoretic Determination of Lactate Dehydrogenase Isoenzymes. N. M. PAPADOPOULOS AND J. A. KINTZIOS 96
A Comparison of a New Latex Agglutination Pregnancy Test with an Established Latex Agglutination-Inhibition Test. MARY ANN GRAHAM AND PAUL E. KALISH 100
Sex Chromatin Screening with Millipore Technic. THAIS V. THRASHER AND RALPH FERGUSON 105
A Flow-Through Cuvette for the Coulter Counter. BRIAN BULL 107

Number 2, February 1967

The Boiling Pot. (How to Survive in the Center of a Frying Pan.) President's Address. ALBERT L. MCQUOWN 109
Progressive Multifocal Leukoencephalopathy. A Virus Disease? JANS MULLER AND ITARU WATANABE 114
Fatal Disseminated Cytomegalic Inclusion Disease in an Adult Presenting with a Lesion of the Gastrointestinal Tract. IRENE NAKONECZNA AND SAUL KAY 124
Rubella Virus: Direct Fluorescence. LUIS A. ESTELA 129
Malacoplakia of the Testis. ROBERT C. BROWN AND BRUCE H. SMITH 135
Luteoma of Pregnancy. A Pseudotumor. GERALD H. MANDELL, WILLIAM S. FLOYD, S. LEONARD COHN, AND PAUL A. GOODMAN 148

Crystalline Inclusion Pneumonia Following the Use of Hytrast in Bronchography. Aurelio Cabrera, John W. Pickren, and Richard Sheehan 154
Histiocytic Medullary Reticulosis. Thiru Vaithianathan, Seymour Fishkin, and John G. Gruhn 160
The Study of Vascularization with Adenosinetriphosphatase (ATPase) Technic. C. A. Dotto, R. L. Cabrini, F. A. Carranza, Jr., and M. E. Itoiz 167
Thermal Stability of Lactic Dehydrogenase from Human Tissues. William F. Karl and Theodore Peters, Jr. 171
Simultaneous Determination of Tissue Copper and Calcium. G. W. Evans, K. A. Lind, and R. E. Wiederanders 175
Autopsy Verification of Suicide by Digitalis. Report of a Case with Successful Chemical Identification of Digitalis Glycosides in Gastric Contents. Roger W. Jelliffe 180
Identification Difficulties with *Shigella dysenteriae*, Serotype 1. David L. Adler and Benjamin M. King 186
Clinical Application of Coagulographic Studies. Harold W. Harrower and David L. Brook 190
Cytology of Synovial Fluid in Rheumatoid Arthritis. Theodore I. Malinin, Thomas J. Pekin, Jr., and Nathan J. Zvaifler 203
The Use of Stereo Reels as an Aid in the Teaching of Pathology. C. M. David 209
Notification of Final Adoption of an International Method and Standard Solution for Hemoglobinometry Specifications for Preparation of Standard Solution. Russell J. Eilers 212
News and Notices 214
In Memoriam:
James Hallett Peers, M.D. J. Beach Hazard 215

Technical Section

Antibody Titrations. Methods and Accuracy. I. Donald Stuard and Joseph R. Bove 217
Modification of the Hopkins-Cole Procedure for Determination of Aldehyde-Free Glacial Acetic Acid. Gloria C. Lindstrom and Charlotte E. Gross 222
An Artificial Blood Serum for Teaching Situations. Clyde C. Marsteller, Howard C. Leifheit, and Leo A. Wiener 224
Efficacy of Coulter Counter in Determining Low Sperm Concentrations. Donald L. Gordon, Judith E. Herrigel, Donald J. Moore, and C. Alvin Paulsen 226
An Electronic Mean Cell Volume Computer and Hematocrit Accessory. Paul G. Hattersley and Dorothy Ragusa 229
A Staining Method for Smears of Peripheral Blood. John M. Clinger and Israel Zayas 234
An Instant Blood Bank Inventory. Douglas M. Strong 236
Semiautomatic Inflation of Blood Pressure Cuffs. Byron A. Myhre 238
Slide Rule for Simple Calculation of Percentage of Prothrombin Activity. Stanley Burrows 241
Laboratory Suggestion:
Alternative Method of Filling the Micro Cuvette of the Beckman/Spinco Spectrocolorimeter. Ole Siggaard-Andersen 243
News and Notices 246

Number 3, March 1967

Human Trophoblast: Normal and Abnormal. A Plea for the Study of the Normal so as to Understand the Abnormal. Ward Burdick Award Address. Arthur T. Hertig 249
Introductory Remarks for the Symposium on Glucose-6-Phosphate Dehydrogenase, the Red Cell, and Hemolysis. William O. Russell 269
Glucose-6-Phosphate Dehydrogenase, the Pentose Phosphate Cycle, and Its Place in Carbohydrate Metabolism. B. L. Horecker 271
The Over-All Significance of Metabolism and Enzyme Activity in the Red Cell. T. A. J. Prankerd 282
Glucose-6-Phosphate Dehydrogenase in Mature Erythrocytes. Paul A. Marks 287
Glucose-6-Phosphate Dehydrogenase. Its Purification and Properties. Harold B. Anstall and Jose M. Trujillo 296
Glucose-6-Phosphate Dehydrogenase Deficiency. Diagnosis, Clinical and Genetic Implications. Ernest Beutler 303

Identification of Tissue Lipids in Lipoid Dermatoarthritis (Multicentric Reticulohistiocytosis). MARK V. BARROW, F. WILLIAM SUNDERMAN, JR., RAYMOND L. HACKETT, AND WILLIAM S. COLVIN 312
Comparison of Methods Designed to Measure Transferrin and Iron-Binding Capacity of Serum. STANLEY BURROWS 326
Quality Control Aspects of the Chemistry Laboratory Form. STEPHEN LEE AND IRWIN SCHOEN 329
An Analysis of Some Components of Variation in Clinical Chemistry. ROLAND E. BERRY 337
Fibrinolytic Activity and Clot Strength in Anemia. A. G. SHAPER, JOHN KYOBE, AND D. K. MWANJE 344
Human Infection with *Isospora belli*. The First Case in Minnesota in 30 Years. ARTHUR SANDERS 347
A Rapid Method of Maceration for Microdissection. THEADIS R. WELLS 349
Letters to the Editor:
Documentation Needed for New Methods and Instruments. A Suggested Documentary Format. BRADLEY E. COPELAND 351
Another Reason for an Elevated MCHC. M. P. K. SHOOBRIDGE 352
Abstracts of Papers. Scientific Sessions of the Annual Meeting of the American Society of Clinical Pathologists, September 1966 353
Organization Section 381
Books Received 388
Book Reviews 394

Technical Section

Micro Automated Parallel Measurement of Serum Calcium and Phosphorus. C. CHARLTON MABRY AND PEGGY WYLES 395
Microfluorometric Screening Technic for Phenylketonurias Using Filter Paper Sample Collection. H. R. IRWIN, EMILIO UNANUE, AND S. NOTRICA 401
An Evaluation of the FTA-ABS Test for Syphilis. WALTER E. BEAM, JR., JOHN D. DEDEAUX, AND JAMES J. HUMES 404
A Note on the Fluorescent Treponemal Antibody-Absorption (FTA-ABS) Test. ROY W. STEVENS, JEANNE BOYLEN, AND ANTHONY J. MEMOLI 408
Simple Scale Expansion for the Flow-Through Hemophotometer. DEWITT T. HUNTER, JR., AND LARRY J. WILLIAMS 410
Increasing the Effectiveness and Utilization of Human Blood by Differential Storage. TURMAN E. ALLEN, JOHN P. KALAS, AND JOSEPH H. KEFFER 413
Laboratory Suggestions:
New Method for Bleeding Guinea Pigs. JAMES P. LEHNERT 416
Processing Cryostat Sections of Formalin-Fixed Tissues. ANN BERGLUND 417
Book Reviews 418

Number 4, April 1967

Reliability of Glutamic-Oxalacetic Transaminase Methods. ELIAS AMADOR, MARY F. MASSOD, AND ROBERT J. FRANEY 419
Amino Acid Composition of Anti-**D** as Isolated by Immunologic Specificity. MOHAMMED Y. KAHN AND HORACE H. ZINNEMAN 429
The Use of Human Spleen Imprints for Routine Testing for Serum Antinuclear Factors by Immunofluorescence. KATHRYN H. SVEC 432
An Avidity Method for the Prediction of Severe Erythroblastosis. ARTHUR SIMMONS 440
Severe Neonatal Anemia Due to Massive Transplacental Hemorrhage. JOHN M. CARPER AND WARD M. O'DONNELL 444
Quantitative Assay of the Hageman Factor. DEWITT T. HUNTER, JR., AND JANE L. ALLENSWORTH 448
An Abnormal Elevation of Hemoglobin A_2 in Hereditary Spherocytosis. JAMES G. HARMELING AND ROSS B. MOQUIN 454
The Duke Bleeding Time. ARMAND J. QUICK 459
Cell-Size Distribution of Mouse Bone Marrow. As Determined by Electronic Particle Counting and Ocular Micrometry. HUN LEE, VICTOR RICHARDS, JAMES LEEF, AND MAXIM PERSIDSKY 466
A New Method for Total, Free, and Conjugated Serum Bilirubin. PATRICK V. FERRO AND ANNA BELL HAM 472

The Hemagglutination Inhibition and Complement Fixation Tests in the Serodiagnosis of Mumps Central Nervous System Disease. A Comparative Study. HERBERT L. ECKERT, BERNARD PORTNOY, MARGARET A. SALVATORE, AND MARTIN KRELL 481
Histiocytosis of Spleen, Lymph Node, and Bone Marrow. Associated with Thrombocytopenia, Splenomegaly, and Splenic Angiomata. SEANA W. QUINTON, HAROLD WURZEL, AND BERNARD CZERNOBILSKY 484
Pulmonary Bile Thromboemboli. A Report of Two Cases. SANTOSH MEHTA AND ALBERT I. RUBENSTONE 490
Hyperplasia, Atypism, and Carcinoma *in Situ* in Prostatic Periurethral Glands. ALEXANDER S. ULLMAN AND OSCAR A. ROSS 497
Deep Mycotic Infections in Colombia. A Clinicopathologic Study of 162 Cases. CARLOS E. PEÑA 505

Technical Section

Comparison of the Fluorescent Treponemal Antibody Absorption and *Treponema pallidum* Immobilization Tests on Serums from 1182 Diagnostic Problem Cases. RONALD M. WOOD, YOSHIHIKO INOUYE, WILLIAM ARGONZA, LYNDA BRADFORD, ROSIE JUE, YVONNE JEONG, JEAN PUFFER, AND HOWARD L. BODILY 521
Fluorescent Treponemal Absorption and *Treponema pallidum* Immobilization Tests in Syphilitic Patients and Biologic False-Positive Reactors. LYNDA BRADFORD, DENNY TUFFANELLI, JEAN PUFFER, MARJORIE L. BISSETT, HOWARD L. BODILY, AND RONALD M. WOOD 525
A Simple Method for the Preparation of a Substrate for a One-Stage Factor V Assay. JACOB N. SHANBERGE, TSUNEMI MATSUOKA, AND HIROMU FUKUI 533
Simple Method for Detection of Abnormal Plasma Fibrinogen Levels. EDMUND M. Y. LOW, H. BRADLEY HILL, AND RONALD L. SEARCY 538
A Screening Test for Detection of Elevated Serum Glutamic Oxalacetic Transaminase Activity. J. LAMAR RENCHER AND MYRTON F. BEELER 541
A Semiautomatic Micro Sample Dilutor. BRIAN S. BULL 545
Semiautomatic Dilution System for the Hematology Laboratory. B. S. BULL, M. A. SCHNEIDERMAN, AND GEORGE BRECHER 549
A Multiple Inoculating Device for Bacteria. RICHARD A. MURPHY AND RIAZ-UL HAQUE 554
News and Notices 555
Book Review 556

Number 5, May 1967

Nodular Theca-Lutein Hyperplasia of Pregnancy (So-Called "Pregnancy Luteoma"). A Clinical and Pathologic Study of 15 Cases. HENRY J. NORRIS AND HERBERT B. TAYLOR 557
Multiple Myeloma and the Nephrotic Syndrome. A Biochemical and Morphologic Study. SEYMOUR ROSEN, STANLEY CORTELL, MARVIN M. ADNER, NICHOLAS M. PAPADOPOULOS, AND KEVIN G. BARRY 567
Adenocarcinoma of the Lungs. An Analysis of 24 Cases in Men. RAMON A. GUILLAN, SAMUEL ZELMAN, AND RENE A. ALONSO 580
Cytomegaly of the Adrenal Gland. An Interesting Finding: Report of Three Cases. T. R. BIRDWELL AND R. M. DIMMETTE 585
Thioflavin-T for Amyloid Detection. S. M. SAEED AND GERALD FINE 588
Electrophoretic Patterns of Several Dehydrogenases and Hydrolases in Muscles in Human Myopathies. NIRMAL C. KAR AND CARL M. PEARSON 594
Serum Levels of 5′-Nucleotidase in Disease. J. ESHCHAR, C. RUDZKI, AND H. J. ZIMMERMAN 598
A Kinetic Photometric Method for Serum Leucine Aminopeptidase. GABOR SZASZ 607
The A/B Ratio. A New Approach to Acid-Base Balance. ELGIN P. KINTNER 614
Screening Tests for Bleeding Disorders. PAUL DIDISHEIM 622
Spectral Absorption Characteristics of Human Methemalbumin. CHARLES A. DANIELS, CONRAD WAGNER, ROBERT C. HARTMANN, AND DAVID E. JENKINS, JR. 631
Eosinophilia of Peritoneal Fluid and Peripheral Blood Associated with Chronic Peritoneal Dialysis. STEPHEN LEE AND IRWIN SCHOEN 638
Mycoplasma pneumoniae. Complement-Fixing Antibody Titers at Birth. O. L. WEISER, H. H. HIGAKI, AND L. B. NOLTE 641
Isolation of *Hemophilus influenzae* from Appendix and Incision. DOROTHY BRANSON 643

Comparison of Use of Alcohol with that of Iodine for Skin Antisepsis in Obtaining Blood Cultures. STEPHEN LEE, IRWIN SCHOEN, AND ANNETTE MALKIN 646
Removal of Complete Spinal Cord at Autopsy. DAVID SOHN 649
Laboratory Suggestion:
A Method for the Autopsy Study of the Femoral-Popliteal Vessels. RAYMOND E. BECKERING, JR., AND JACK L. TITUS 652
Report of Two Meetings on Selection of Criteria for a Pure Cholesterol Preparation to Be Used for Standardizing Serum Cholesterol Measurements for Medical Diagnosis and Therapy. RUDOLPH J. MUELLING AND BRADLEY E. COPELAND 654
In Memoriam:
Ella Mae Gallavan, M.D. L. C. COSTLEY 658
Andrea Saccone, M.D. ANGELO M. SALA 659
Gedeon Eros, M.D. ALFRED SCHWARZ 659
Roland Harris Osborne, M.D. ALFRED A. KOSKY 660

Technical Section

Electronic Data Processing System for Clinical Laboratories. JON V. STRAUMFJORD, JR., MARY N. SPRABERRY, HOMER G. BIGGS, AND THOMAS A. NOTO 661
A New Automated Method for Urea Nitrogen Analysis. RONALD L. SEARCY, JAMES A. FOREMAN, ALAN KETZ, AND JOHN REARDON 677
Erythrocyte Osmotic Fragility Adapted to the AutoAnalyzer. JEAN GOWDY AND ELMER W. KONEMAN 682
A Rapid Hematoxylin and Eosin Stain. J. O. TABOAS AND R. J. CEREMSAK 689
Laboratory Suggestions:
An Improved Method for Filtration of Amniotic Fluid. LESTER H. GERSHENFELD AND PAUL E. KALISH 691
Test for Occult Blood in Feces Fixed by Polyvinyl Alcohol: False-Positive Test Produced by Formalin. C. R. RATLIFF AND M. O. CARNLEY 691
News and Notices ..... 690 and 692

Number 6, June 1967

Argininosuccinic Acid Lyase in Human Erythrocytes and Plasma in Health and Disease. KIHACHIRO TAKAHARA AND SAMUEL NATELSON 693
Enzymologic Approach to the Diagnosis of Death by Drowning. Preliminary Report. WERNER U. SPITZ, HAYDEN P. BURFITT, HENRY C. FREIMUTH, AND MORITZ MICHAELIS 704
Insulin Response in Glucose-Tolerance Tests. STANLEY BURROWS 709
Total Iron-Binding Capacity Without Deproteinization with Nitroso-R-Salt. HERMAN BROWNSTEIN 714
Immunologic Response in Mice and Rabbits to Mycobacterial Antigens Determined by the Jerne Agar-Plaque Method. R. C. PARLETT AND Y. M. CHU 719
The Bacteria Mima-Herellea. Isolation and Clinical Significance in a General Hospital. WILLIAM R. IRVING, JR., AND WILLIAM C. HERRICK 729
Isolation of Cytomegalovirus from Tissues of Condyloma Acuminatum. HERBERT R. MORGAN AND PIERO C. BALDUZZI 734
Cytomegalic Inclusion Disease. The Fetal Disorder. RICHARD L. NAEYE 738
Pathology of Abnormal Hemoglobin Diseases Seen in Thailand. I. Pathology of β-Thalassemia Hemoglobin E Disease. NATTH BHAMARAPRAVATI, SUPA NA-NAKORN, PRAWASE WASI, AND SOODSAKORN TUCHINDA 745
Neurilemmoma of Bone. KENNETH J. FAWCETT AND DAVID C. DAHLIN 759
Sweat-Gland Carcinoma. A Clinicopathologic Problem. WILLIAM L. MILLER 767
Megalocytic Interstitial Nephritis. An Entity Probably Related to Malakoplakia. RICHARD RAVEL 781
Congenital Spongioblastoma of the Pons. F. G. FUSTE, D. E. SNYDER, AND A. PRICE 790
A Rapid Method of Preparing Smears of Effusions and Solid Mass Aspirates for Cytologic Diagnosis. L. T. YAM 795
News and Notices 801
Renal Homotransplantation. The Cytology of the Urine Sediment. TILDE S. KLINE AND JOHN E. CRAIGHEAD 802

In Memoriam:
Howard A. Ball, M.D. W. C. Herrick 807
Dee C. Lee, M.D. M. J. Kilbury, Sr. 807
Book Review 808

Technical Section

Comparison of Fluorescent and Conventional Darkfield Methods for the Detection of *Treponema pallidum* in Syphilitic Lesions. Rosie Jue, Jean Puffer, Ronald M. Wood, George Schochet, Walter Smartt, and Warren A. Ketterer 809
Drug Susceptibility Tests for Tuberculosis Using Drug Impregnated Disks. Marguerite Griffith, Mary Lou Barrett, Howard L. Bodily, and Ronald M. Wood 812
A Manual Punch Card System for Recording, Filing, and Analyzing Antibiotic Sensitivity Test Results. S. Stanley Schneierson and Daniel Amsterdam 818
An Albumin Pseudoagglutinating Property in Serum. Leon N. Sussman, Hannah Pretshold, and Fitzroy Joseph 821
Optimal Conditions for Dialysis of Spinal Fluid and Urine in the Routine Laboratory. David W. Palmer and Theodore Peters, Jr. 824
A New Fixative for the Cytochemical Examination of Blood and Bone Marrow Smears. R. E. Davis and P. J. Fimmel 827
Book Review 829
Laboratory Suggestions:
An Adaptation of the Refractometer for Rapid Specific Gravity Determinations. DeWitt T. Hunter, Jr., and Lyman F. Shurtliff 830
Rapid Photographic Recording of Ouchterlony Plates with Simple Polaroid Equipment. Roberto Cavanna 831
Modified Coleman Cuvette Adapter. Saul L. Kanter 832
Letter to the Editor. A. Richard Walter 833
Comments of Board of Editors. L. W. Diggs, Israel Davidsohn, Edward R. Powsner, and John W. Rebuck 833
News and Notices 836

INDEX OF SUBJECTS

Original articles

Acknowledgments, 592
Activity
  Factor V, assay, 599
  thromboplastic, and content in lipids and phospholipids in polycythemia vera, 320
  urinary alkaline phosphatase, rise during storage, 133
Adenocarcinoma
  and adenolipomyoma of bronchus, 383
  esophageal gland, of mid-esophagus, 281
  focal, and villous adenoma in Meckel's diverticulum, 183
  in hamartoma of bronchus, associated with benign tumors, 383
Adenolipomyoma, of bronchus, and adenocarcinoma, 383
Adenoma
  terminology, 170
  villous, and adenocarcinoma in Meckel's diverticulum, 183
Agar, neomycin blood, group A Streptococcus screening, 441
Agglutination, latex tests, evaluation of endpoints, 251
Alkaline phosphatase
  intestinal, in human serum, 81
  reaction, in disk electrophoresis, 530
  urinary activity, rise during storage, 133
Amino acids, serum, one-dimensional paper chromatography, 405
p-Aminohippuric acid, and inulin, simultaneous colorimetric determination in blood and urine, 95
Ammonia, measurement in plasma, 233
Analysis
  electrophoretic, of M-components in immunoproliferative disorders, 418
  immunologic, of M-components in immunoproliferative disorders, 418
  of quality control data, 447
  of serum calcium, 136
  x-ray diffraction, of urinary calculi, 413
Aneurysm, dissecting, of aorta, 44
Animal bites, *Pasteurella multocida*, 552
Antibiotics
  bacterial susceptibility, 200
  disks, testing system, 200
  false resistance, due to penicillinase, 237
Anticoagulants, and I^{131} triiodothyronine, influence on resin sponge uptake, 87
Anti-γG globulin, detection, 251
Antimicrobials, effect on *Lactobacillus casei* folate assay, 401
Antithrombin III, and diseases, 69
Aorta, dissecting aneurysm, 44
Apparatus
  aid in collection of 24-hour urine specimens, 453
  atomic absorption spectrometry, measurement of copper, 286
  Autotechnicon, decalcification of bone, 363
  computer analysis of quality control data, 447
  Cotlove chloride titrator, ultramicro determination of chloride in biologic fluids, 444
  device for plating of phenylketonuria, for Guthrie bacterial inhibition test, 255
  evaluation of endpoints in latex agglutination tests, 251
  flow-through sample holder, for Coulter counter, 257
  improved microscope slide for "Pap" smears, 258
  semiautomatic pipetting of sample and reagent, 502
  semi-micro prothrombin time test chamber, 511
  standardized columns for gas-liquid chromatography assay of ketosteroids, 295
Assay
  ceruloplasmin, in serum, 524
  11-deoxy-17-ketosteroids, gas-liquid chromatography, 295
  Factor V activity, 599
  Lactobacillus casei folate, effect of antimicrobial agents, 401
Astrocytes, silver impregnation, frozen and paraffin sections, 611
Atheroembolism, cause of hemorrhage and necrosis in stomach and intestine, 30
Automation
  ceruloplasmin assay, in serum, 524
  electronic data processing, 575
  oxyhemoglobin determination, 143
  semiautomated
    determination of inulin and *p*-aminohippuric acid in blood and urine, 95
    pipetting of ultramicro volumes of sample and reagent, 502
  urea determination, 147, 443
Autotechnicon, decalcification of bone, 363

Bacteriology
  cultivation of mycobacteria, sputum collection, 347
  Guthrie inhibition test, phenylketonuria specimen plating, 255
  isolation of Shigella
    comparison of new and traditional media, 350
    comparison of plating media with stools, 356

Original articles—*Continued*
Bacteriology—*Continued*
Pasteurella multocida, 552
pathogenicity of L forms of *Staphylococcus aureus*, 466
significance of diatom demonstration in diagnosis of death by drowning, 377
stool studies, merthiolate iodine formalin concentration, 605
susceptibility to antibiotics, 200
tuberculosis, methods for general hospital, 435
Blastocystis hominis, protozoan characteristics, 495
Blood
agar, group A Streptococcus screening, 441
anticoagulants, influence on resin sponge uptake of I^{131} triiodothyronine, 87
anti-γG globulin, detection, 251
antithrombin III, 69
ceruloplasmin in serum, automated assay, 524
coagulation
antithrombin III, 69
assay for Factor V activity, 599
atheromatous emboli in gastrointestinal tract, 30
hemorrhage in stomach and intestine, 30
hemostasis and evidence of hemolysis, 62
polycythemia vera and associated thrombocytopathy, 320
colorimetric determination of inulin and *p*-aminohippuric acid, 95
cyanmethemoglobin, extinction coefficient, 332
determination of iron in hemoglobin, 225
Factor V, assay of activity, 599
hemoglobin A_2, quantitative determination, 139
hemolysis, and hemostasis, 62
hemorrhage, caused by atheroembolism, 30
hemostasis, evidence of hemolysis, 62
histiocytic medullary reticulosis, 396
human, leukocyte lipids, 314
immunoglobulin levels in tuberculosis, 556
immunoproliferative disorders, electrophoretic and immunologic analysis, 418
isohemagglutinins, semi-microtechnic for detection, 240
normal values, in laboratory primates, 484
oxyhemoglobin determination, 143
plasma, ammonia measurement, 233
polycythemia vera, thromboplastic activity and content in lipids and phospholipids, 320
semi-micro prothrombin time test chamber, 511
serum protein levels in tuberculosis, 556
significance of hemosiderin in leukocytes in physiology of granulocytes, 474
Bone
decalcification, with Autotechnicon, 363
marrow, reactive plasmacytosis, 546
preparation of microscopic sections, 277
Bromelin (0.5%), serum-to-cell ratio technic, 593
Bronchus
hamartoma, adenocarcinoma associated with benign tumors, 383
Buschke-Löwenstein tumor, of rectum, 389
Butanol, extraction, prevention of pyridium interference in urinalysis, 337

Calcium, in sera, determination, 136
Calculi, urinary, x-ray diffraction analysis, 405
Cancer
adenocarcinoma
in hamartoma of bronchus associated with benign tumors, 383
of mid-esophagus, 281
histiocytic medullary reticulosis, 396
in Meckel's diverticulum, 183
intracavitary cardiac tumor, 58
lymph node metastasis, and colonic polyps, 170
melanogenic papillary cystadenoma, 49
metastasizing basal cell carcinoma, 53
"Pap" smears, improved microscope slide, 258
squamous cell carcinoma of cervix, 58
terminology, 170
Carcinoma
and metastasis and colonic polyps, 170
basal cell, metastasizing, 53
squamous cell, and intracavitary cardiac tumor, 58
terminology, 170
Cell
basal, metastasizing carcinoma, 53
squamous, carcinoma of cervix, 58
Ceruloplasmin, automation assay, in serum, 524
Cervix, squamous cell carcinoma, and intracavitary cardiac tumor, 58
Chart, zone size, and single disk sensitivity test, 603
Chemistry, semiautomatic pipetting of sample and reagent, 502
Chloride, ultramicro determination, Cotlove chloride titrator, 444
Chromatography gas-liquid, of urinary 17-ketosteroids, 216, 295
one-dimensional paper, for serum amino acids, with reference to phenylalanine, 405
Coagulase, production, tube and plate methods for detection, 153
Colitis, chronic ulcerative, differentiation from Crohn's disease of the colon, 259
Collection
24-hour urine, specimens, 453
sputum, cultivation of mycobacteria, 347
College of American Pathologists Standards Committee, national comprehensive laboratory survey, 1965, 104
Colon
adenomatous polyp, and metastasis, 170

colitis cystica profunda, 159
Crohn's disease, and chronic ulcerative colitis, 259
Column, standardized, gas-liquid chromatography of ketosteroids, 295
Components, M, in immunoproliferative disorders, 418
Computer, analysis of quality control data, 447
Concentration, merthiolate iodine formalin, for stool studies, 605
Condyloma acuminatum, of rectum, 389
Control
of clinical laboratory, 243
quality, evaluation of number plus method, 248
Copper, measurement in biologic material, atomic absorption spectrometry, 286
Coulter counter, flow-through sample holder, 257
Crohn's disease, and colitis, differentiation, 259
Cultivation, mycobacteria, sputum collection, 347
Cyanmethemoglobin, extinction coefficient, 332
Cystadenoma, melanogenic papillary, of soft palate, 49
Cystica profunda colitis, 159
Cytology
basal cell, metastasizing carcinoma, 53
coulter counter, flow-through sample holder, 257
diffuse urticaria pigmentosa, 183
histiocytic medullary reticulosis, 396
"Pap" smears, improved microscope slide, 258
reactive plasmacytosis, 546
serosal exudates in familial Mediterranean fever, 23
significance of hemosiderin in leukocytes, in physiology of granulocytes, 474
squamous cell, carcinoma of cervix, 58

Data processing, electronic, 575
Decalcification, of bone, with Autotechnicon, 363
11-Deoxy-17-ketosteroids, assay by gas-liquid chromatography with standardized columns, 295
Diagnosis
death by drowning, significance of diatom demonstration, 377
intestinal parasites, fixatives and technics, 342
Diatoms, significance in diagnosis of death by drowning, 377
Diffraction, x-ray, of urinary calculi, 413
Disk
antibiotic testing, 200
sensitivity test, zone size chart, 603
Disk electrophoresis, alkaline phosphatase reaction, 530
Dithionite, prevention of pyridium interference in urinalysis, 337
Diverticulum, Meckel's adenoma and adenocarcinoma, 183
Drowning, diagnosis, significance of diatom demonstration, 377
Dysentery, and colitis cystica profunda, 159

Electrophoresis, analysis of M-components in immunoproliferative disorders, 418
Emboli, atheromatous, in gastrointestinal tract, 30
Endpoints, evaluation, in latex agglutination tests, 251
Enzymes
alkaline phosphatase
effect of storage on activity, 133
in human serum, 81
reaction in disk electrophoresis, 530
pencillinase, false antibiotic resistance, 237
serum lipase, photometric method, 307
Esophagus, esophageal gland adenocarcinoma, 281
Extinction coefficient, of cyanmethemoglobin, 332
Extraction
butanol, prevention of pyridium interference in urinalysis, 337
iodine, serum butanol technic, 561
Exudates, serosal, in familial Mediterranean fever, 23

Factor V, assay for activity, 599
Fatty acids, determination by photometry, 301
Fallopian tube, adenomatoid tumors, 537
Fever, familial Mediterranean, serosal exudates, 23
Fixatives, diagnosis of intestinal parasites, 342
Fluids, biologic, determination of chloride, 444
Folate, microbiologic assay, 401
Fractionation, determination of alkaline phosphatase, 530
Freezing, effect on pathogenic fungi, 100
Fungi, pathogenic, effect of freezing and storage, 100

Gastrointestinal tract, atheromatous emboli, 30
Genital tract, adenomatoid tumors, 537
Gland
esophageal, adenocarcinoma of mid-esophagus, 281
lacrimal, relation of benign lymphoepithelial lesion to Sjögren's syndrome, 365
Granulocytes, physiology, significance of hemosiderin in leukocytes, 474
Guthrie test, bacterial inhibition, device for plating of phenylketonuria, 255

Hamartoma, of bronchus, adenocarcinoma associated with benign tumors, 383
Heart
aorta, dissecting aneurysm, 44
intracavitary tumor, 58
myocarditis, chronic Chagas', 39

Original articles—*Continued*

Hemoglobin, determination of iron, 225
Hemoglobin A_2, quantitative determination, 139
Hemoglobinometry, and atomic absorption spectroscopy, 225
Hemolysis, initiation of hemostasis, 62
Hemorrhage
  of intestine, due to atheroembolism, 30
  of stomach, due to atheroembolism, 30
Hemosiderin, in leukocytes, significance in physiology of granulocytes, 474
Hemostasis, evidence of hemolysis, 62
Histiocytes, medullary reticulosis, 396
Histochemistry, study of nemaline myopathy, 1
Hypersensitivity, immediate type reactions, slide test for detection, 150

I^{131} triiodothyronine, resin sponge uptake, influence of anticoagulants, 87
Immunoglobulin, levels in tuberculosis, 556
Immunology, analysis of M-components in immunoproliferative disorders, 418
Immunoproliferation, M-components, 418
Impregnation, for astrocytes, frozen and paraffin sections, 611
Infiltrate, nonmalignant, in bone marrow, 546
Inhibition, Guthrie bacterial test, phenylketonuria specimen plating, 255
Inhibitor, labile, effect on alkaline phosphatase activity during storage, 133
Interference, pyridium, prevention in urinalysis, 337
Intestinalis, pneumatosis, 455
Intestine
  alkaline phosphatase, in human serum, 81
  atheromatous emboli, 30
  hemorrhage, due to atheroembolism, 30
  necrosis, due to atheroembolism, 30
  parasites, fixatives and technics for diagnosis, 342
  pneumatosis intestinalis, 455
  protozoan characteristics of *Blastocystis hominis*, 495
Inulin, and *p*-aminohippuric acid, simultaneous colorimetric determination in blood and urine, 95
Iodine, serum butanol extraction, technic, 561
Iron, in hemoglobin, determination, 225
Isohemagglutinins, semi-microtechnic for detection, 240
Isolation
  of *Pseudomonas aeruginosa* strains, 519
  of Shigella
    comparison of new and traditional media with stool specimens, 350
    comparison of plating media with stools, 356

17-Ketosteroids, urinary, gas-liquid chromatography, 216, 295

L forms, *Staphylococcus aureus*, pathogenicity, 466
Laboratory survey, national comprehensive, Standards Committee of the College of American Pathologists, 104
Lactobacillus casei, folate assay, effect of antimicrobial agents, 401
Latex, agglutination tests, evaluation of end points, 251
Lesions
  adenocarcinoma of mid-esophagus, 281
  benign lymphoepithelial of lacrimal gland, relation to Sjögren's syndrome, 365
  condyloma acuminatum of rectum, 389
  of dorsal vagal nucleus, in respiratory distress syndrome, 269
Leukocytes
  and lipids, 314
  hemosiderin, significance in physiology of granulocytes, 474
Lipase, serum, photometric method, 307
Lipids
  leukocytes, of human blood, 314
  thromboplastic activity and content in polycythemia vera, 320
Lung, fate of macroaggregates of radioalbumin, 18
Lymph node, metastasis, and colonic polyps, 170
Lymphoma, histiocytic medullary reticulosis, 396

Macroaggregates, of radioalbumin, fate in the lung, 18
Magnification, elimination in roentgenograms, for scintiscan superimposition, 568
Meckel's diverticulum, focal adenocarcinoma, and villous adenoma, 183
Media
  for isolation of Shigella, comparison of new and traditional, 350
  plating, comparison with stools for isolation of Shigella, 356
Merthiolate iodine formalin concentration, for stool studies, 605
Metastasis, lymph node, and colonic polyps, 170
Microbiology
  effect of antimicrobial agents on *Lactobacillus casei* folate assay, 401
  group A Streptococcus screening, with neomycin blood agar, 441
  incidence of encapsulated *Pseudomonas aeruginosa* strains, 519
  protozoan characteristics of *Blastocystis hominis*, 495
  significance of diatom demonstration in diagnosis of death by drowning, 377
Microscope
  improved slide for "Pap" smears, 258

preparation of sections, decalcified and undecalcified bone, 277
spinal fluid examination, 156
Mucin, mucosal, differentiation of Crohn's disease and colitis, 259
Mycobacteria, cultivation, sputum collection, 347
Myocarditis, chronic Chagas', 39
Myopathy, nemaline, histopathologic and histochemical studies, 1

Necrosis
of intestine, due to atheroembolism, 30
of stomach, due to atheroembolism, 30
Nemaline, myopathy, 1
Neomycin, blood agar, group A Streptococcus screening, 441
Neoplasms
adenocarcinoma
and adenolipomyoma of bronchus, 383
and adenoma in Meckel's diverticulum, 183
of mid-esophagus, 281
adenoma, terminology, 170
genital tract, 537
melanogenic papillary cystadenoma, 49
metastasizing basal cell carcinoma, 53
Nucleus, dorsal vagal, lesions in respiratory distress syndrome, 269

Oxyhemoglobin, automated determination, 143

Palate, soft, melanogenic papillary cystadenoma, 49
Parasites, intestinal, fixatives and technics for diagnosis, 342
Parasitology
fixatives and technics for diagnosis, 342
Pasteurella multocida, 552
Pasteurella multocida
in animal bites of humans, 552
Pathogenicity
fungi, effect of freezing and storage, 100
L forms of *Staphylococcus aureus*, 466
Pencillinase, false antibiotic resistance, 237
Phenylalanine, one-dimensional paper chromatography, 405
Phenylketonuria, plating of specimens, Guthrie bacterial inhibition test, 255
Phosphatase, alkaline, in human serum 81
Phospholipids, thromboplastic activity and content in polycythemia vera, 320
Photometry
determination of fatty acids, application to serum, 301
method for serum lipase, 307
Physiology, granulocytes, significance of hemosiderin in leukocytes, 474
Pipetting, semiautomatic, ultramicro volumes of sample and reagent, 502
Plasma
measurement of ammonia, 233
prothrombin time test, 511
Plasmacytosis, reactive, bone marrow findings, 546
Platelets, lipids and phospholipids, thromboplastic activity and content in polycythemia vera, 320
Plating
media, comparison with stools for isolation of Shigella, 356
phenylketonuria specimens, for Guthrie bacterial inhibition test, 255
Polycythemia vera
and associated thrombocytopathy, 320
thromboplastic activity and content, in lipids and phospholipids of platelets, 320
Polyp, pedunculated adenomatous, with carcinoma and metastasis, 170
Pregnanediol, gas-liquid chromatography, 216
Pregnanetriol, gas-liquid chromatography, 216
Primates, laboratory, normal blood values, 484
Protein, origin, pulmonary alveolar proteinosis, 14
Proteinosis, pulmonary alveolar, origin of proteins, 14
Prothrombin, semi-micro time test chamber, 511
Pseudomonas aeruginosa, encapsulated strains, incidence, 519
Pulmonary washings, alveolar proteinosis, origin of proteins, 14
Pyridium, prevention of interference in urinalysis, 337

Quality control, computer analysis of data, 447

Radioalbumin, macroaggregates, fate in the lung, 18
Radioisotopes, albumin, fate of macrosggregates, 18
Reaction
alkaline phosphatase, in disk electrophoresis, 530
hypersensitivity, slide test detection, 150
Reagent, semiautomatic pipetting, 502
Rectum, condyloma acuminatum (Buschke-Löwenstein tumor), 389
Renal function, technics for evaluation, 95
Resin sponge, uptake, influence of anticoagulants, 87
Resistance, antibiotic, due to pencillinase, 237
Respiratory distress syndrome, lesions of dorsal vagal nucleus, 269
Reticulosis, histiocytic medullary, 396
Roentgenograms, scintiscan superimposition, elimination of magnification, 568

Sample
flow-through holder, for Coulter counter, 257
semiautomatic pipetting, 502

Original articles—*Continued*

Scintiscan, elimination of magnification in roentgenograms, 568
Screening, group A Streptococcus, with neomycin blood agar, 441
Sections
  frozen, silver impregnation for astrocytes, 611
  microscope, decalcified and undecalcified bone, 277
  paraffin, silver impregnation for astrocytes, 611
Serum
  amino acids, one-dimensional paper chromatography, 405
  application of photometric method for determination of fatty acids, 301
  automation of ceruloplasmin assay, 524
  determination of calcium, 136
  human, intestinal alkaline phosphatase, 81
  protein levels in tuberculosis, 556
  ratio to cell (9:1), 0.5% bromelin ratio technic, 593
Serum butanol, iodine extraction, 561
Serum calcium, determination, 136
Serum lipase, photometric method, 307
Shigella, isolation
  comparison of new and traditional media with stool specimens, 350
  comparison of plating media with stools, 356
Silver, astrocyte impregnation, frozen and paraffin sections, 611
Sjögren's syndrome, relation to benign lymphoepithelial lesion in lacrimal gland, 365
Slide test, basophil degranulation, detection of hypersensitivity reactions, 150
Slides, improved, for "Pap" smears, 258
Smears, "Pap," improved microscope slide, 258
Specimen
  sputum collection, cultivation of mycobacteria, 347
  stool, comparison of new and traditional media for isolation of Shigella, 350
  urine, collection, 453
Spectrometry, atomic absorption, measurement of copper, 286
Spectroscopy, atomic absorption, in hemoglobinometry, 225
Spinal fluid, microscopic examination, technic, 156
Sputum, collection, cultivation of mycobacteria, 347
Staining
  prevention of pyridium interference in urinalysis, 337
  silver impregnation, in frozen and paraffin sections, 611
Staphylococcus aureus, pathogenicity of L forms, 466
Stomach
  atheromatous emboli, 30
  hemorrhage, due to atheroembolism, 30
  necrosis, due to atheroembolism, 30
Stools
  comparison with plating media for isolation of Shigella, 356
  specimens, comparison of new and traditional media for isolation of Shigella, 350
  studies, merthiolate iodine formalin concentration, 605
Storage
  effect on pathogenic fungi, 100
  effect of urinary alkaline phosphatase activity, 133
Streptococcus, group A screening, with neomycin blood agar, 441
Superimposition, scintiscan, elimination of magnification in roentgenograms, 568

Technics
  ammonia measurement in plasma, 233
  analysis
    blood values, 484
    M-components in immunoproliferative disorders, 418
    quality control data, 447
  assay for Factor V activity, 599
  atomic absorption spectrometry, 286
  atomic absorption spectroscopy, 225
  automation
    ceruloplasmin assay in serum, 524
    method for determination of urea, 147
    oxyhemoglobin determination, 143
  0.5% bromelin 9:1 serum-to-cell ratio, evaluation, 593
  colorimetric determination of *p*-aminohippuric acid in blood and urine, 95
  decalcification of bone, with Autotechnicon, 363
  11-deoxy-17-ketosteroids assay, gas-liquid chromatography, 295
  detection
    coagulase production, tube and plate methods, 153
    human blood group isohemagglutinins, 240
  hypersensitivity reactions, basophil degranulation slide test, 150
  determination
    calcium in sera, 136
    iron in hemoglobin, 225
    normal blood values, 484
    urea, 443
  diagnosis
    death by drowning, 377
    intestinal parasites, 342
  differentiation between Crohn's disease of colon and colitis, estimation of mucosal mucin, 259

disk antibiotic testing, 200
disk electrophoresis, alkaline phosphatase reaction, 530
electronic data processing, 575
elimination of magnification in roentgenograms, 568
gas-liquid chromatography, of urinary 17-ketosteroids, 216
group A Streptococcus screening, with neomycin blood agar, 441
hemoglobinometry, and atomic absorption spectroscopy, 225
24-hour urine specimens, collections, 453
isolation of Shigella
  comparison of new and traditional media with stool specimens, 350
  comparison of plating media with stools, 356
measurement
  copper in biologic material, atomic absorption spectrometry, 286
  extinction coefficient of cyanmethemoglobin, 332
  individual variability, 325
merthiolate iodine formalin, for stool studies, 605
microscope
  examination of spinal fluid, 156
  slide for "Pap" smears, 258
paper chromatography, for serum amino acids, with reference to phenylalanine, 405
phenylketonuria specimen plating, for Guthrie bacterial inhibition tests, 255
photometric method
  determination of fatty acids, 301
  serum lipase, 307
precision control in clinical laboratory, 243
preparation of microscopic sections, of decalcified and undecalcified bone, 277
prevention of pyridium interference in urinalysis, dithionite reduction or butanol extraction, 337
quality control, number plus method, 248
quantitative determination of hemoglobin A_1, 139
semiautomatic pipetting of sample and reagent, 502
semi-micro
  detection of isohemagglutinins, 240
  prothrombin time test, 511
serum butanol-extractable iodine, 561
silver impregnation for astrocytes, frozen and paraffin sections, 611
single disk sensitivity test, and zone size chart, 603
sputum collection, cultivation of mycobacteria, 347
tuberculosis bacteriology, for general hospital, 435
x-ray diffraction analysis, of urinary calculi, 413
ultramicro determination of chloride, Cotlove chloride titrator, 444
Tests
  antibiotics, 200
  Guthrie bacterial inhibition, device for plating of, phenylketonuria, 255
  latex agglutination, evaluation of endpoints, 251
  prothrombin time, semi-micro chamber, 511
  single disk sensitivity, and zone size chart, 603
Thrombocytopathy, and polycythemia vera, 320
Tissue, excised, effect of freezing and storage on pathogenic fungi, 100
Titrator, Cotlove chloride, ultramicro determination of chloride, 444
Tuberculosis
  bacteriology, methods for general hospital, 435
  serum protein and immunoglobulin levels, 556

Uptake, resin sponge, of I^{131} triiodothyronine and influence of anticoagulants, 87
Urea, determination, 147, 443
Urinalysis, prevention of pyridium interference, dithionite reduction or butanol extraction, 337
Urine
  alkaline phosphatase, rise during storage, 133
  colorimetric determination of inulin and *p*-aminohippuric acid, 95
  24-hour, collection of specimens, 453
Urticaria pigmentosa, diffuse, before and after whealing, 187
Uterus, adenomatoid tumor, 537

Variability, individual, clinical measurement, 325

Whealing, and diffuse urticaria pigmentosa, 187

X-ray, diffraction analysis of urinary calculi, 405

TABLE OF CONTENTS

JULY TO DECEMBER, 1967

Number 1, July 1967

Nemaline Myopathy. A Histopathologic and Histochemical Study. ARTHUR W. NIENHUIS, RALPH F. COLEMAN, W. JANN BROWN, THEODORE L. MUNSAT, AND CARL M. PEARSON 1
Pulmonary Alveolar Proteinosis. Origin of Proteins in Pulmonary Washings. JEAN E. HAWKINS, EDWARD V. SAVARD, AND JOSE RAMIREZ-RIVERA 14
The Fate of Macroaggregates of Radioalbumin in the Lung. EDUARDO MURPHY S., CELIA CERVANTES R., AND ROBERTO MAASS E 18
Serosal Exudates in Familial Mediterranean Fever. HANS-JOACHIM MERKER, CHIAM HERSKO, AND SHLOMO SHIBOLET 23
Hemorrhage and Necrosis of the Stomach and Bowel Due to Atheroembolism. A Correlative Study of Atheromatous Emboli to the Gastrointestinal Tract in Humans and Experimental Animals. W. ROBERT ANDERSON, A. MACDONELL RICHARDS, AND LEO WEISS 30
Chronic Chagas' Myocarditis. Report of a Case. RODOLFO LORENZANA 39
Dissecting Aneurysm of the Aorta in a 16-Year-Old Girl. ROBERT W. HUNTINGTON, JR., AND ALBERT E. HIRST, JR. 44
Melanogenic Papillary Cystadenoma of the Soft Palate. RONALD L. GOLDMAN 49
Metastasizing Basal Cell Carcinoma. Report of a Case. HAMILTON A. BAXTER AND W. J. PIROZYNSKI 53
Intracavitary Cardiac Tumor Secondary to Squamous Cell Carcinoma of Cervix. Report of a Case and Review of Literature. AHMAD DIBADJ 58
Evidence of Hemolysis in the Initiation of Hemostasis. HARLAN J. PEDERSON, THOMAS H. TEBO, AND SHIRLEY A. JOHNSON 62
Antithrombin III and Diseases. EDITH VON KAULLA AND KURT N. VON KAULLA 69
Intestinal Alkaline Phosphatase in Human Serum. SOLOMON POSEN, FRANCIS C. NEALE, DONALD J. BIRKETT, AND JOAN BRUDENELL-WOODS 81
Clinical Studies of the Influence of Anticoagulants on the Resin Sponge Uptake of I^{131} Triiodothyronine. MERTIN A. QUAIFE AND J. J. MATOOLE 87
A Semiautomated Method for the Simultaneous Colorimetric Determination of Inulin and *p*-Aminohippuric Acid in Blood and Urine. STEPHEN V. KREES, ALBERT J. HAUKAL, AND FREDERICK W. WOLFF 95
The Effect of Freezing and Storage at −24C. on the Survival of Pathogenic Fungi in Excised Tissue. ROBERT B. TESH, JOHN D. SCHNEIDAU, AND CHERYL A. ERWIN 100
A Report of the Standards Committee of the College of American Pathologists. National Comprehensive Laboratory Survey-1965, Chemistry Section. BRADLEY E. COPELAND, WILLIAM J. BLAKE, RUDOLPH J. MUELLING, AND LAURENCE P. SKENDZEL 104
In Memoriam:
Lavern C. Fischer, M.D. W. J. ARMSTRONG 127
Books Received 128
Book Reviews 43, 48, 57, 61, 94

Technical Section

Paradoxical Rise in Urinary Alkaline Phosphatase Activity During Storage. Indirect Evidence for a Labile Inhibitor. WAYNE V. GREENBERG AND T. E. TEMPLE 133
Determination of Calcium in Icteric, Hemolyzed, or Lipemic Sera. THOMAS CHEN AND LOUIS B. DOTTI 136
A Simple Electrophoretic Method for the Quantitative Determination of Hemoglobin A_2. ARNOLD H. BIERMAN AND ALFRED ZETTNER 139
Automated Oxyhemoglobin Determination. PAUL V. STRUMIA AND ALBERT J. EUSEBI 143
An Improved Automated Method for the Determination of Urea. JOSEPH S. ANNINO 147
An Indirect Basophil Degranulation Slide Test for Detection of Immediate Type Hypersensitivity Reactions. ROBERT A. LEVIN 150
Comparison of a Tube Method and a Plate Method for Detecting Coagulase Production. LEONARD P. LOTTER AND BONNIE S. MEYER HORSTMAN 153

Method for Microscopic Examination of Spinal Fluid. JEAN-PAUL Y. BOULANGER 156
Book Reviews 142, 146, 155, 157, 158

Number 2, August 1967

Colitis Cystica Profunda. DONALD M. WAYTE AND ELSON B. HELWIG 159
Pedunculated Adenomatous Polyp of the Colon with Carcinoma, Lymph Node Metastasis, and Suture-Line Recurrence. Report of a Case and Discussion of Terminology Problems. NATHAN LANE AND GORDON I. KAYE 170
Villous Adenoma with Focal Adenocarcinoma in a Meckel's Diverticulum. WAGUIH ABDEL-BARI ... 183
News and Notices 186
Diffuse Urticaria Pigmentosa. An Ultrastructural Study before and After Whealing. ROBERT G. FREEMAN 187
A Quality Control System for Disk Antibiotic Testing. S. BRANDT ROSE AND JOHN A. BERKY 200
Gas-Liquid Chromatography of Urinary 17-Ketosteroids, Pregnanediol, and Pregnanetriol in Normal Individuals. LEO P. CAWLEY, BILL O. MUSSER, AND HARVEY A. TRETBAR 216
The Use of Atomic Absorption Spectroscopy in Hemoglobinometry. I. The Determination of Iron in Hemoglobin. ALFRED ZETTNER AND ARTHUR H. MENSCH 225
In Memoriam:
Niels P. Dungal, M.D. LEIF BJORNSSON 229
Milton Tellem, M.D. DAVID R. MERANZE 230
Robert Allen Burke, M.D. PAUL W. GERARD 231
Oscar Riley, Jr., M.D. L. E. MCHENRY 231
Book Review 232

Technical Section

Measurement of Ammonia in Plasma. HARRISON H. LEFFLER 233
False Antibiotic Resistance Due to Penicillinase. JOHN C. MCKITRICK AND CAROL S. AFF 237
A Semi-Microtechnic for the Detection of Human Blood Group Isohemagglutinins. R. V. MCCLOSKEY AND C. M. ZMIJEWSKI 240
Evaluation of a System for Precision Control in the Clinical Laboratory. ROY N. BARNETT AND CARMINE L. PINTO 243
An Evaluation of the Number Plus Method of Quality Control. SAM FRANKEL AND ROBERT C. AHLVIN 248
An Apparatus for More Objective Evaluation of Endpoints in Latex Agglutination Tests. GERHARD L. BACH 251
Laboratory Suggestions:
A Simple Device for Rapid Plating of Phenylketonuria Specimens for the Guthrie Bacterial Inhibition Assay. SHEILA G. WAINER AND LOUIS F. METZGER 255
A Flow-Through Sample Holder for the Coulter Counter. STEFAN E. EPSTEIN AND JOSEPH DIMAGGIO, JR. 257
Improved Microscope Slide for "Pap" Smears. M. J. LEITNER 258

Number 3, September 1967

Estimation of Mucosal Mucin as an Aid in the Differentiation of Crohn's Disease of the Colon and Chronic Ulcerative Colitis. H. RICHARD HELLSTROM AND EDWIN R. FISHER 259
Lesions of the Dorsal Vagal Nucleus in the Respiratory Distress Syndrome. SUE BUCKINGHAM, SHELDON C. SOMMERS, AND RUSSELL P. SHERWIN 269
A Rapid Technic for the Preparation of Large Microscopic Sections of Decalcified and Undecalcified Bone. DOROTHY A. BEAN AND HENRY H. BANKS 277
Esophageal Gland Adenocarcinoma of the Mid-Esophagus. Report of a Case. THEODORE G. GOLDFARB 281
Measurements of Copper in Biologic Materials by Atomic Absorption Spectrometry. F. WILLIAM SUNDERMAN, JR., AND NORRIS O. ROSZEL 286
Routine Assay of 11-Deoxy-17-Ketosteroids in Human Urinary Gas-Liquid Chromatography with a Standardized Column. DAVID SOLOMON, DELI STRUMMER, AND PADMANABHAN P. NAIR 295
A Photometric Method for the Determination of Fatty Acids. Application to Serum. CHARLES G. MASSION AND DAVID SELIGSON 301

Serum Lipase. A Rapid Photometric Method. CHARLES G. MASSION AND DAVID SELIGSON 301
Leukocyte Lipids of Human Blood. HAN-SEOB KIM, MINORU SUZUKI, AND ROBERT M. O'NEAL 314
Thromboplastic Activity and Content in Lipids and Phospholipids of Platelets in Polycythemia Vera with Associated Thrombocytopathy. MUSTAFA KARACA AND MARIO STEFANINI 320
Individual Variability Reexamined with Standard Clinical Measures. ROY B. MEFFERD, JR., AND ALEX D. POKORNY 325
Letters to the Editor:
The Extinction Coefficient of Cyanmethemoglobin. ALFRED ZETTNER 332
Dr. Williams' Reply. GEORGE Z. WILLIAMS 333
News and Notices 334
Book Reviews 280, 285, 294, 300, 306, 319

Technical Section

Prevention of Pyridium Interference in Urinalysis by Dithionite Reduction or Butanol Extraction. HANS N. NAUMANN 337
A New Fixative and Technics for the Diagnosis of Intestinal Parasites. ROBERT B. BURROWS 342
Sputum Collection for Cultivation of Mycobacteria. An Early Morning Specimen or the 24- to 72-Hour Pool? DONALD G. KESTLE AND GEORGE P. KUBICA 347
Isolation of Shigella. III. Comparison of New and Traditional Media with Stool Specimens. WELTON I. TAYLOR AND BRIGITA HARRIS 350
Isolation of Shigella. IV. Comparison of Plating Media with Stools. WELTON I. TAYLOR AND DOROTHY SCHELHART 356
Laboratory Suggestion:
Decalcification of Bone in 2 Hours with the Autotechnicon. GUY C. GLENN AND CHARLES J. DAVIS, JR. 363
Book Review 364

Number 4, October 1967

Benign Lymphoepithelial Lesion of the Lacrimal Gland and Its Relationship to Sjögren's Syndrome. RAMON L. FONT, MYRON YANOFF, AND LORENZ E. ZIMMERMAN 365
The Significance of Diatom Demonstration in the Diagnosis of Death by Drowning. DAVID A. NEIDHART AND ROBERT M. GREENDYKE 377
Adenocarcinoma Arising in a Hamartoma (Adenolipomyoma) of the Bronchus Associated with Multiple Benign Tumors. Report of a Case. CHARLES M. KARPAS AND NORMAN BLACKMAN 383
Giant Condyloma Acuminatum (Buschke-Löwenstein Tumor) of the Rectum. ROMAN KNOBLICH AND JOHN F. FAILING, JR. 389
Histiocytic Medullary Reticulosis. Report of the First Case in Jamaica. V. PERSAUD AND J. K. WOOD. 396
Effect of Antimicrobial Agents on the *Lactobacillus casei* Folate Assay. MICHAEL E. J. BEARD AND DONALD M. ALLEN 401
One-Dimensional Paper Chromatography of Serum Amino Acids, with Particular Reference to Phenylalanine. LEO P. CAWLEY, WILLIAM L. GOODWIN, AND PAULETTE DIBBERN 405
X-Ray Diffraction Analysis of 464 Urinary Calculi. ROBERT H. MORRISS AND MYRTON F. BEELER 413
M-Components in Immunoproliferative Disorders. Electrophoretic and Immunologic Analysis of 200 Cases. ZBIGNIEW A. ZAWADSKI AND GEORGE A. EDWARDS 418
In Memoriam:
Thomas T. Frost, M.D. VERNIE A. STEMBRIDGE 431
Correction 431
Book Reviews 395, 400, 412, 417, 432, 433, 434

Technical Section

Modern Methods in Tuberculosis Bacteriology for the General Hospital. PAUL D. ELLNER AND STANLEY ELBOGEN 435
Group A Streptococcus Screening with Neomycin Blood Agar. LOUIS P. BLANCHETTE AND CAROLYN LAWRENCE 441
Letter to the Editor. ALFRED GROSSMANN 443
Ultramicro Determination of Chloride in Biologic Fluids with the Cotlove Chloride Titrator. OLE SIGGAARD-ANDERSEN 444

Computer Analysis of Quality Control Data. Rex B. Conn, Jr., Melvin L. Best, Vicente Anido, and Frank D. Crain 447
News and Notices 452
Laboratory Suggestion:
A Convenient Aid in the Collection of 24-Hour Urine Specimens. Harlan E. Shake 453

Number 5, November 1967

Pneumatosis Intestinalis. Bruce H. Smith and Lawrence H. Welter 455
Pathogenicity of L Forms of *Staphylococcus aureus*. Raymond M. Young and Enold H. Dahlquist 466
Hemosiderin Content of Leukocytes in Animals and Man and Its Significance in the Physiology of Granulocytes. B. J. Koszewski, H. Vahabzadeh, and S. Willrodt 474
Compendium of Normal Blood Values for Baboons, Chimpanzees, and Marmosets. Kenneth F. Burns, Fred G. Ferguson, and Suzanne H. Hampton 484
Protozoan Characteristics of *Blastocystis hominis*. Charles H. Zierdt, Willadene S. Rude, and Brian S. Bull 495
Semiautomatic Pipetting of Ultramicro Volumes of Sample and Reagent. Ole Siggaard-Andersen and Brian S. Bull 502
In Memoriam:
Frank F. Forry, M.D. Joseph Lehman 510

Technical Section

Semi-Micro Prothrombin Time Test Chamber. A Comparison Study of 750 Duplicate Tests with Sera-Tek Chambers, Mechrolab Clot Timer, and Standard Quick Test Tube Methods. J. B. McCormick and J. B. Kopp 511
Increasing Incidence of Encapsulated *Pseudomonas aeruginosa* Strains. H. R. Elston and Kenneth C. Hoffman 519
Automation of Ceruloplasmin Assay in Serum. Sherman S. Wilson, Ramon A. Guillan, and E. Virginia Hocker 524
An Indogenic Reaction for Alkaline Phosphatase in Disk Electrophoresis. Emanual Epstein, Paul L. Wolf, Jerome P. Horwitz, and Bennie Zak 530
News and Notices 535
Book Review 536

Number 6, December 1967

Adenomatoid Tumors of the Uterus and Fallopian Tube. Luther A. Youngs and Herbert B. Taylor 537
Bone Marrow Findings of Reactive Plasmacytosis. Charlotte T. Liu and Miriam B. Dahlke 546
Pasteurella multocida in Animal Bites of Humans. Dorothy Branson and Frederick Bunkfeldt, Jr. 552
Serum Protein and Immunoglobulin Levels in Tuberculosis. Jane B. Faulkner, R. LeRoy Carpenter, and Robert A. Patnode 556
A Simplified Procedure for Serum Butanol-Extractable-Iodine. John M. Masen 561
A Method for the Elimination of Magnification in Roentgenograms for Scintiscan Superimposition. David B. Lewall and W. Newlon Tauxe 568
Electronic Data Processing in a Private Hospital Laboratory. Paul R. Finley, Frances Anderson, and Robert Neese 575
Corrections 589
In Memoriam:
John Lee Lattimore, M.D. William J. Reals 590
Acknowledgments 592

Technical Section

An Evaluation of the 0.5% Bromelin 9:1 Serum-To-Cell Ratio Technic. L. V. Milner 593
A New Assay for Factor V Activity. Clara V. Hussey and Mae E. Hoffman 599
The Single Disk Sensitivity Test Using a Zone Size Chart. Esther L. Cheatle 603
Merthiolate Iodine Formalin Concentration for Stool Studies. A Comparative Evaluation. Subhash C. Vidyarthi 605

A Dependable Silver Impregnation for Astrocytes in Frozen and Paraffin Sections. VERNON W. FISCHER, JAMES S. NELSON, AND ELVIE TAYLOR 611
News and Notices 614
Index of Subjects, Volume 48, July–December, 1967 615
Index of Authors, Volume 48, July–December, 1967 622
